Attached is copy of new locomotive assignment for our railroad effective July 1, 1977.

Per previous instruction, whenever units other than Minnesota-Dakota Division assigned are tested, maintenance points should be advised.

Also, this office should be advised of all test information performed by our forces at all points regardless of assignment.

Locomotive Assignment Effective July 1, 1977

Attached find locomotive assignment and points of assignment for all diesel units on the system. This assignment is effective July 1, 1977 and will supersede all other assignments.

All efforts should be made for power transfer as rapidly as possible, working through the Power Desk personnel.

Forward all records to the proper maintenance point, advising the Division Manager the unit number of the Shannon file, date and how sent.

J. R. Kipton
