MILWAUKEE TO LET IMPORTANT CONTRACTS.

One of the contracts to be called for by the Chicago, Milwaukee & Puget Sound Railway at Tacoma within the next five days will be for a lumber dock. This dock will be about 300 feet long and situated on the west side of the railway's property on the Puyallup waterway.

Contracts have been let by the road to John Huntington, of Tacoma, for the foundation for the Balfour-Guthrie Company docks and the contract will soon be let for the building.

The contract for the ferry barges, to be used by the road at Tacoma and Seattle, was let to the Hail Brothers

Marine Railway & Shipbuilding Company, of Winslow, last week. These barges will be handled by tugs. Whether tugs will be built or purchased by the company has not yet been decided.
